

DATA SHEET

MRC88CTL / MRAUDIO8X8CTL EIGHT SOURCE - EIGHT ZONE CONTROLLER/AMPLIFIER

MRCREM/MRC88KP

The optional hand-held remotes and In-wall keypads provide a simple and elegant interface for your control system

The Xantech MRC88 is the heart of a complete whole-house entertainment distribution system capable of controlling every major system in the home: entertainment, security, lighting, and climate control, all with a single button touch. Simply press a keypad, and the MRC88 can take care of the rest: the lighting is just right, air set to the desired temperature, and the entertainment center set to your favorite program.

A wide variety of control choices make it easy to personalize the MRC88 system to suit your needs perfectly: SPLCD touchscreen controllers for the ultimate in customizable control, MRC88DJ keypads for an attractive control solution, TS57LCD Touchscreen control or LC8 keypads for control at an affordable price.

The flexibility of the MRC88 system makes it easy to build the perfect system for your needs; for audio distribution only, choose MRAUDIO8X8, or choose the MRC88CTL for both audio and video distribution.

The MRC88CTL and MRAUDIO88CTL systems make home control easy and affordable.

Features include:

- Eight Audio inputs
- Eight Video inputs
- Eight zone-specific outputs
